

Dear PiNSA Board Members,

PiNSA arranged a patient get-together at the Irene Country Club in Centurion, Pretoria. The event was arranged by our ambassador coordinator, Annie Pienaar and our stalwart member, Renita Coertzen. It was held on Saturday 29 July and was attended by 21 patients and their families. Unfortunately we had a couple of members that fell ill in the days leading to the event.

This was the largest number of patients and family members for a PiNSA event since the pandemic and it was a wonderful opportunity to get to know other PiNSA family members. The group shared their stories over pizzas and really bonded over lunch.

Some soft toy giraffes were given out to new members and the appreciation was tangible and heart-warming.

PiNSA would like to motivate other areas to follow suit as it is a wonderful opportunity for members to get to know and support each other.

A great thank you goes out to IPOPI for affording PiNSA the funding to celebrate World PI Week, although, late our patients celebrated being PID's in style.

Kind regards

Anton van der Zandt
